## Design with Science in Mind

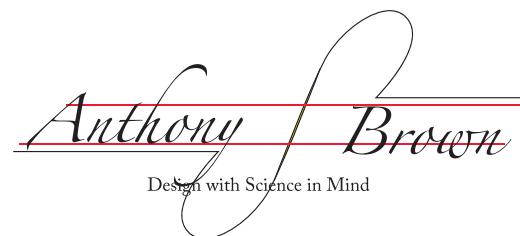

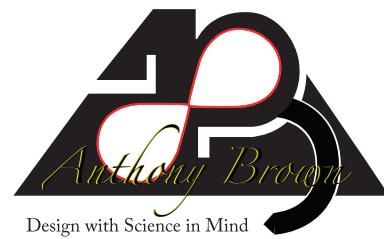

These Logo designs were created to express originality and creativity. These original concepts were developed to express elegance and strength. While having science in mind, I incorporated an abstract of the infinity sign. The infinity sign represents the timeless understanding and communication of science through the instrument of Design. The main body of the Design is made to represent the Initials "AB" for Anthony Brown.

GOLD – F2C611, this color is used for its implications of quality.

BLACK – 000000, Black is a bold shade that demands attention and shows stability.

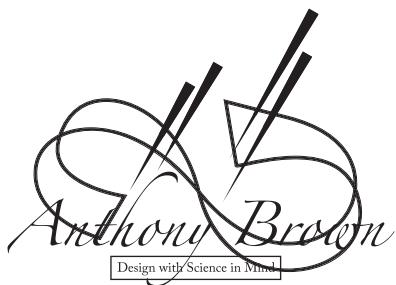

RED - ED2927, this color may be used arbitrarily. It may be used as a background or as ascent lines.

WHITE – FFFFFF, the White shade is used as a canvas to create separation and confinement.
